

RMT40

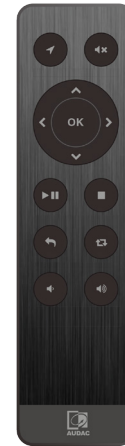

RF Remote control / 2.4 GHz

► Features

- 2.4 GHz wireless RF technology
- 13 function buttons
- Multifunctional operation
- Compatible with various devices
- ~ 10 meter transmission distance
- Out of sight operation
- Including USB receiver

► Applications

- Schools & factories
- Emergency services
- Warehouses & retail stores
- Public & office buildings
- Schools & factories
- ...

The RMT40 remote controller can be used in combination with a variety of audio source devices. It features 13 buttons with various functions depending of the unit it is connected to.

2.4 GHz wireless technology offers a transmission distance up to ~ 10 meters, allowing out-of sight operation which is a great advantage compared to regular IR remote control systems.

An included USB type receiver shall be connected to the provided USB slot on the audio source device. Transmitters and receivers are matched with unique ID's, allowing simultaneous operation of multiple systems without disturbance while receiver extension is possible using USB extension cables when installed in closed / shielded cabinets.

It is constructed of high-quality ABS materials with a brushed look finishing, giving it stylish elegant appearance while rubber type buttons offer a comfortable feel.

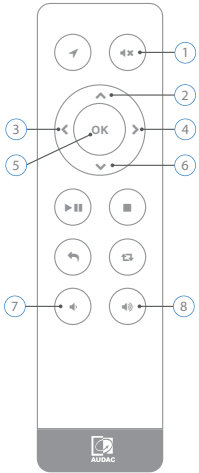

Transmitter is powered by 2 x AAA (included) batteries.

► Specifications

SYSTEM SPECIFICATIONS	
Number functions	13 buttons (functions depending of connected unit)
Technology	2.4 GHz ISM
Transmission distance	~ 10 meter
Power supply	3V DC
