

M66/67

Vocal Microphone

AUDAC

► Features

- Cardioid polar microphone
- Stylish, qualitative, dynamic microphone
- Made with neodymium magnet
- Feedback is reduced to a minimum
- With (M67) or without (M66) on/off switch

► Applications

Perfect for:

- Presentations
- Singers
- Vocal concerts

The AUDAC M66 and M67 are fully featured, dynamic general-purpose microphones for the budget conscious performer who wants style, audio quality and a product that works hard.

They are solid constructed, with a robust grill to protect the diaphragm against rough handling. And are suited for indoor as well as outdoor use.

The high sensitive neodymium element makes them perfect for presentations and singing.

Due to the unidirectional (supercardioid) polar pattern, the feedback is reduced to a strict minimum.

The M66 and M67 are both exactly the same microphones with the same specifications, except the on/off switch which is only provided on the M67.

► Specifications
